
	<h2 style="color: purple;">Safety Protocol on COVID Testing & Vaccination</h2>	
	<p>Document number based on ISO 45001:2018: HSE.3.PP.2/G20 Updated: 10/05/2021</p>	

General instructions:

1. As of 10th of May 2021, **all the administrative & academic staff members** before entering the EUC premises **should have available**:
 - A. A negative rapid test for COVID-19 performed within the last 7 days before the day of their visit (all individuals **on their 1st day of attendance should have available a negative test, effective for 72 hours**), or
 - B. A Valid Vaccination Certificate* or an evidence showing that **21 days have elapsed since the administration of the 1st dose of an approved vaccine** either by Cyprus or any of the countries referred to the following link: <https://cyprusflightpass.gov.cy/en/vaccinated-passengers>, or
 - C. An official document by their personal doctor or an SMS by the Ministry of Health showing that they have contracted the coronavirus **in the past six months**.

Students and visitors should provide** at least one of the evidence above at the defined entrance points before entering the premises.

2. The persons who should be performing a rapid test, they can go at any of the testing units which are providing free tests to all, in accordance with the announcement on the website of Press and Information office (www.pio.gov.cy).
3. For those who have difficulties to perform a rapid test during weekend as per the instruction above, EUC will be providing them an additional option to do the required test. A mobile testing unit will be at the outdoor area of the cafeteria every **Monday (07:30 a.m. – 09:30 a.m.)** and the tests will be supplied by the University.
4. Everyone should demonstrate personal responsibility in following the above guidelines for supporting the efforts of the organization to ensure a safe working and teaching environment for all.

Notes:

* *The vaccination certificate will be considered valid provided the vaccination has been carried out with one of the vaccines approved by the European Medicines Agency (EMA) and the required doses of the respective vaccine have been completed, unless there is an evidence showing that 21 days have elapsed after the 1st dose of any of the approved vaccines.*

** *Visitors may include vendors, external collaborators for labs equipment, journalists etc.*
